Country Traders in the different towns in the country can receive their applies from him. Linen & Cotton Tapes ;

> VALUABLE INFORMATION. THE INDIAN PURGATIVE PILLS are a certain cure for disease in its every variety of form, because they thoroughly cleanse the atomach and howels, induce a proper discharge by the lungs, skin and kidney, and sumalite the blood to purify itself. In other words they open all the natural drains, and leave NATURE (The Grand Physician) free to drive disease from the body. Therebody, through which all morbid and corrupt humers (the cause of discuse) are carried off; and so long as they are all kept open, and discharge freely their allotted portions of impurity, the body will continue in health; but when from eating improper food, breathing impure air, sudden transitions from heat to cold-over exhaustion or any other cause, the howels become corrive, the pures of the skin become closed, or the knineys fail to perform their functions properly, the impurities which should by desired tions properly, the impurities which should be drained from the body by those outlets, will be retained, and con-tinue to accumulate until the body becomes literally load-

ed with disease.

The above Pills may be taken at Alt times, and under the above Pills may be taken at Alt times, and under sale of the perfect safety. They suit ALL COMPLAINT'S and all ages, and are as natural to the hu Black do.

ARRIVAL OF THE LIVERPOOL

The Steamer Liverpool arrived at New York on Sunday night, having left Liverpool on the 1st of August, and brings dates from that city to the lat inst. from London to 31st of July and Havre to the 27th. We are indebted to the N. Y. Express for extracts. The news is of uncommon interest, and the movements in the East are such as to arrest the attention of the world. The important news is:

The Death of Sultan Mahmoud. The Destruction of the Turkish Army

The trough of Mehemet Als, and the probability of his triumph in Constantinople. -

The imprisonment of British Merchants in China.

Great riots had taken place in Birmingham, and other-places in England, but the police still kept the upper hand. The riot at Birmingham on the 15th was the most serious accompanied as it was by the firing of hou-e, public buildings, &c. The damages were estimated at more than £30,000. The magistrates were much blined for their supineness, &c.

AFFAIRS IN CHINA. On the evening of July 34, the over-land mail from the East had just reached London. Letters from China, April 15th, state that "the trade at China is stopped, and her Majesty's superintendent, and some of the British Merchants, are taken prisoners by the Chinese authorities. The prisoners had not the British Merchants, are taken prisoners by followed by that of the total defeat of the Turk- buildings, in some of which each single room the Chinese authorities. The prisoners had not ish army by the Egyptians under Ibrahum Pa- was occupied by a family. DEATH OF THE SULTAN. On the morning of the 17th news was received in London of the death of the Sultan. He died on the 30th June, and his eldest son, now 17 years of age, was proclaimed emperor by the Divan. Sultan was 51 years of age, and has left six children. He succeeded to the throne on the 28th June: 1808, on the deposition of his elder brother, Mystophs IV

Thus he abandoned his strong periting, and two formidable redoubts constructed by Prussian officers, from which great advantage was anticipated. In order to draw the Turks still further from their entrenchments, Ibrahim and Soliman continued to retire for two hours, hasteging torgain a field of battle which the superior indement of Selves had previously selected as one of the most favorable. On reaching this ground the Egyptian temy suddenly faced right about, and availing itself of the nature of the position, formed into compact masses, the infantry in the centre, the cavalry and light artillery to each wing, and made vigorous charges on the Turks, who were astounded by this sudden attack. The ranks

of the latter were soon thrown into disorder. The Semakter, however rode up to the front and by his religious de the beauty at the corne neound him, remedied for a line his faler aten His heavy arithery, affortunately for him, could not come up, and the right guns of the Egyp tians, directed by European officers, and seconded by well timed charges of cavalry, threw his ranks into disorder. His wings were at the same time too extended, and his troops, excited by the ardour of pursuit, had not preserved any regular order of battle; they could make scarculy any resistance; and at this period some corps of Arabs, which Ibrahim in his retreat left in ambush, on the right and left, fell upon the Turkish rear, and thus completely put the Ottoman troops to the rout. The disorder became so great that the Turkish soldiers threw away their arms, and fled in the utmost confusion. Part of the troops endeavored to regain the en trenched camp, while others made for the most formidable points of the Emphrates: -it appears that a large portion of the fugitives succeeded in exceping, and, that the, massacre was not so great as might have been expected. But the camp, artillery, baggage, ane even the muskets of the Turkish army left into the hands of the Egyptians. The Serackies, carried away in the general rout, crossed the Emphrates. THE CONFLAGRATION AT

ST. JOHN. The take the make making from the office of the st. Min Courier, dron which of gold cabe following part aniers of the awful fire which is

burred in that city on Saturdsy last. The fire was discovered a few minutes before nine v'clock, on Salerday night, bataling trobs a house in Nelson-street, occopied as a store and ware house by Messra Hugh Irvine & Brothers, ship-builders, A.c. and the upper part as a wellings, which continued burning until day light yesterday morning before its devouring progress was stayed. All the buildings on both sides of Nelson-street, and on Lawton's Weterbery's, Donaldson's, and the North Market wharves, together with those on both sides of Duck street (from the Market square to Union street,) on the south side of Union street, from the new dwelling houses of Messre. John and James Lawton to the water, including all he erections and lumber on the Hon. William Black's and on Crook shank and Walker's wharzes, fronting Adams's slip, and all the buildings on the north side of the Market square, with the house of Thomas Merritt. Esq occuried by Medice A. B. Truca and IVm. Strickand conting on Panes Walliam stort fopposhe the Commercial Bank) are entirely destroyed, and a great part of their contents either burned or lost. Here the further progress of the flames was fortunately arrested, the exert mus of the people, providentially, being sided by the Brick buildings of Mr. James K. M'Kee, (formerly owned by W. T. Peters, Esq) which brined the last building destroyed. The houses on the opposite side of the street, among which were the Commercial Bank, Messrs. Barlow's ed with carpets and other woollens, and kept

constantly wet, the fire was prevented crossing the street at this point. So intense was the heat that the buildings on the South Market Wharf were frequently on fire, sithough separated from those on the North by a Slip of one hundred and fifty feet and a road-way on each wharf of twenty five feet, making in all a distance of two hundred feet. The rigging of several small vessels lying in the slip (it being low water at the time) having ignited, it became accessory to out away their maste to save them from entire destruction and to prevent the communication of the flames to the opposite side of the slip. The American schooner Compeer, lying at the South Wharf, was among the num'er.

It is utterly impossible at this time, to give the names of all the sufferers undeed the task would be a difficult one at any time, as the ground between Nelson and Dock and Union treets was the kly covered by numerous small under the captain Pashs. These events coming greater than by the memorable fire of the 4th of so rapidly after each other, would seem to indi | January 1837 when 115 buildings were destroyor of those who have been thus in a moment driven from their homes, in some cases almost naked, and hungry and pennyless.

> The Confier gives a list of 82 buildings, many of them being three and four stories high, which were destroyed, besides two ranges of atores on the east side of Essex street, and two extensive ranges on the west side, including about fitty extensive mercantile establishments.

We are glad to hear that notwithstanding the great confusion which provailed no human lives are known to have been lost .. weral prisons however, received severe bruises

It may seem surprising that the fire, originating in a building on a wharf, with a supply of water close at hand, could not have been subdued before making much progress; but when it is recollected that the tide was out at the timethat every thing at all combustible was in a ready state of ignition from the late warm and dry organized are or hook and ladder company in After the protection, offering the hereditary government the city that the engines are not of the first or-A knowledge of the captain Pasha's defection | Ir tile and careless spectators, without sufficient control on the part of the city authorities to direct their energies aright that many of the fire wardens, although well meaning and willing to urge what they considered for the best, are not particularly acquainted with the nature of pul, ling down houses, &c. the extent of the pres-

ent configuration will not be wandered at. The fire is said to have had its origin in the flame of a candle coming in contact with cakura lying upon the top of a cask of brandy, from which a boy was drawing some of the liquor, in the preminen occupied by the Messrs. Irvine But-it is now in a manner immeterial in what The locology papers are notorious for crowing way the fire originated it is sufficient to know that by it, a large portion of the most valuable husiness part of the city was reduced in a few hours to a heap of smouldering ashes, and that several of our enterprising citizens, who about the same hour, and on the same day only two years and seven wonths since had the mornification of seeing terge portions of the produce of years of fall and labor suddenly vanish, and from the effects of a high they were steadily recovering, are pow again called upon to bewail the loss of much valuable property, and to seek other places of francis, in which to endeavor to retrieve their few fortunes.

> The Courier thinks that the amount of property destroyed will not tall-short of \$200,000. but we have been informed by a gentlemen from New Brunswick, that the loss will greatly exceed this amount.

If to discover the cause and nature of disease-I to make a medicine universal in its powers, and universal in its curative effects upon every kind of walady, proved by the cures performed upon thousands of persons, restored to the blessings of health if to do these things be preferencibly, then is Dr. Benjamin Brandreth entitled to the proise of this and each succeeding generation. By the means he points out, chronic inflimities and premature death are prevented. What are the means? Simply Vegetable Purgation, and it is now an established fact that there is no other way by which a REAL CURE

And when a medicine comes en-dorsed with all the great names that have adorned the annuls of the medical profession, and warranted by the real and signature of long and uniform success, its proprietor makes no un easonable demand upon the public confidence, when he claims for it a superior consideration.

Fis. Camomile Preparation by Dr. Wm. Evans s undehinbly antitl_i to this enviable distinction, for whilst no modical authority in existence condemns it, every medical practitioner that is acquained with it, freely acknowledge dispre eminent virtues and that the faster should do so in opposition to their personal interests, must be attributed either to their candor and love or truth, or to their unwillingness to fly in the face of all observation, and the testimory of thousands,

Dr. W. Evans does not pretend that his Camomile

Tonic Pills will cure all diseases. He trankly and ne conscientiously admits that they will not. He lays the go cight to the discovery of the Philosopher's Stone, and wange abody in honeve that he wills the Elixir of Life," but he does say, and he does helican and he does believe, and he can prove, that in debility and im-paired constitution; in Nervous diseases totall kinds ; in weakness of the digestive organs, in incipient consumptions, whether of the lungs or the liver; in the dreadful debility occasioned by the use of purgatives; in palsy, theumausm, (more especially) in the sickness incident to mothers, and to le-males of relexed nerves; in every case of delirium tremens, or that disease which is brought on by intemperance; in the wretched horrors of body and mind which accrue from occasional inebrity; loss of appetite, langor, melancholy, pains in the head, limbs, or side; in corrupt sallow, and uncomely complexion, caused by the bad state of the fluids n-all these cases, and in others, mentioned in the hills of directions given with his medicines, HE DOES SAY, that the Camomile Youic Pills, interchanged occasionally with his Aperient Family Pills, (the best known) which are sold with them, will effect mmediate relief; and if used but for a fair period of trial a perfect cure. This much is placed beyond a doubt by daily testimomes which would be given on oath, and for this much Dr. W Evans can conscientiously request confidence. He therefore need only add that his Camomile Tonic Pills, together with his excellent Family Aprilent Pills, can be obtained wholesale or retail at No. 7, Division street near Chatham square, N. York, and his authorized agents n town and country.

Other and more conclusive demonstrations of the efficacy of Dr. Evans' Camomile Preparation and Aperican Medicines, are submitted by the following important and extraordinary cures effected by their highly medicinal qualities; all of which may be seen at Dr. Wm. Evans' Medical Office. No 7, Division street. Une or two of these he herewith re-

spectfully gives to a discriminating public.

Low spicits is a certain state of the mind, accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences imagined, Ancient writers supposed this disease to be confined o those particular regions of the abdomen technially called hypochondria, which are situated on the right or left side of that eavity, -bence comes the rame hypochondrianis.

STMPTOMS ... The common corporeal symptoms are flatulency in the stomach or bowels, actid eructations, custiveness, spasmodic pains, giddiness, dimness of sight, painitations, and often an utter inability of fixing the attention upon any subject of impostance, or engaging in any thing that demands vigor or courage. Also languidness; the mind becomes irritable, thoughtful despending, melaucholy and delected, accompanied with a total derangement of the next system. The mental lessings and peculiar tram of ideas that haunt the imagina-tion and overwhelm the judgment.exhibitan infinite diversity. The wisest and best of men are as open to this affliction as the weakest.

CAUSES. A sedentary life of any kind-especial-

ly severe study, protracted to a late hour in the night, and rarely relieved by social_mtcrcourse, or exercise, a dissolute babit, great excess in eating and drinking, the immoderate use of mercury, vio leur purgatives, the suppression of some habitual discharge, or long continued eruption; relaxation or debility of same or presimportant organs with

in abdomen; is frequent have.
TREATHERT - The principal objects of treatment are, to remove indigetion, to strangthen the redy. and to cliven the spirits, which may be promoted by exercise, early hours, regular meals and pleasant conversation. The bowels (if costive) being carefully regulated by the occasional use of a mild aperient. We know und ing hetter calculated to obtain this end, than Dr. Wro. Eyans' Aperient Pills-he-ing mild and certain in their operation. The bowels being once elversed, his igestimable Camomile Pills, (which are tonic, whondyne, & anti-spasmodic) are an infallible remedy. A without dispute have

proved a great blessing to the numerous public.

Some physicians have rees, , eded a free use of mercury but it should not be reserted to; as in many caree it will greatly aggravate symptoms. Sold wholegale and retait by E.F. DUREN, Bookseller,
